## SUMMIT INSTRUMENTS, INC. RECEIVES ISO 9001:2008 WITH DESIGN CERTIFICATION

Akron, OH (March 25, 2009) – Summit Instruments, Inc.'s operations have been certified to the ISO 9001:2008 with Design International Quality System Standard. The company's entire quality system was audited and certified by Smithers Quality Assessments Inc. (SQA), a leading independent accredited registrar.

Summit Instruments has a state-of-the-art electronics manufacturing facility located near Akron, Ohio. They specialize in the design and manufacture of high reliability test instruments and sensors such as accelerometers and rate gyros as well as inertial measurement systems for use in industrial, military, aerospace, and other demanding applications.

The Design certification is a special distinction for organizations that create new products. Summit Instruments' staff engineers work with customers to develop tailored solutions for specific applications.

The registering firm, SQA, is fully accredited by the American National Accreditation Body (ANAB), the International Automotive Task Force (IATF), the Dutch Council for Accreditation (RvA), and is a member of the Independent Association of Accredited Registrars.
